## SUMMARY

Full-stack web developer with a BA and Summa Cum Laude honors in Mathematics and IT from Northwest University. Certificate in Full-Stack web development from the University of Washington. Knowledge in Information Systems and numerical problem solving, as well as acquiring skills in JavaScript, HTML, and CSS. Currently an Academic Advisor for Northwest University for the past two years, with valuable experience in solving solutions to create efficiency, consultant for students, and working with/training a team of advisors to reach team goals. Developed a system for updating current software to help with system maintenance and data tracking. My aim is to bring these fundamentals to a much more technical scale. With a drive to learn and proven experience as a reliable team player and supportive leader I will serve and help others achieve goals through efficiency and simplicity.

## TECHNICAL SKILLS

**Languages:** JavaScript, CSS, HTML, MySQL

**Applications:** jQuery, AJAX, Bootstrap, Web Services API, Node.JS

## PROJECTS

### Game & GIF

<https://github.com/Tskading/Game-Meme> | <https://tskading.github.io/Game-Meme/>

- Game & GIF is a website that contains a database of video game information along with a variety of GIFs that correlate with the game.
- I was responsible for back-end responsibilities such as applying functions and setting API's to make the site more dynamic.
- JavaScript, jQuery, CSS, Bootstrap, HTML, RAWG API, GIPHY API, Slack, Zoom

### Workday Scheduler

[https://github.com/Ianaac27/Work\\_Day\\_Scheduler](https://github.com/Ianaac27/Work_Day_Scheduler) | [https://ianaac27.github.io/Work\\_Day\\_Scheduler/](https://ianaac27.github.io/Work_Day_Scheduler/)

- An application that is meant to keep track of the users' daily agenda within their workday hours.
- Dynamic feature designed to change the color as each hour passes to determine whether the hour is current, past, or in the future.
- JavaScript, jQuery, CSS, Bootstrap, HTML, Moments.JS

### Password Generator

[https://github.com/Ianaac27/Password\\_Generator](https://github.com/Ianaac27/Password_Generator) | [https://ianaac27.github.io/Password\\_Generator/](https://ianaac27.github.io/Password_Generator/)

- This application will generate a random password based off a series of prompts and confirmations for the user.
- Functionality to generate a password randomly, as well as reset.
- JavaScript, CSS, HTML

## EXPERIENCE

### **NPP Academic Advisor Northwest University**

2018 – Present  
Kirkland, WA

Assist students with a plan for their higher education. Consulting with students and staff and managing tasks and computer systems. Familiarity with many software applications such as Excel, Access, Power Campus, Sales Force, Calendly, Microsoft 365, Teams, and Zoom.

#### *Key Accomplishments:*

- Leadership involving training and interviewing new employees. Developed a system for updating current software to help with system maintenance and data tracking.

### **Technology Assistant Sultan School District**

2017 – 2018  
Sultan, WA

Repair computers, projectors and mimeo boards - such as keyboards, screens, hard drive replacements, etc.

### **Para-Educator Sultan School District**

2014 – 2018  
Sultan, WA

Support children and teens in their learning through encouragement, brainstorming for ideas, social expectations, as well as relationship building. Classroom management, communication with students and their parents, and tutoring and one-on-one support.

#### *Key Accomplishments:*

- Had been recognized as employee of the month twice by my colleagues and peers.
