Summary

With a solid foundation in Web Development and a decade of educational experience, I offer a unique blend of technical acumen and creative expertise that fuels my passion for UI design. My recent role as a Digital Learning Teacher at Monroe School District allowed me to hone my design skills, creating engaging content, videos, and graphics while instilling problem-solving abilities and a growth mindset in students. Additionally, my tenure as an Academic Advisor at Northwest University refined my consulting, customer service, and task management skills, all of which are essential in understanding user needs and creating intuitive interfaces. Backed by my Web Development and CRM Administration skills, coupled with a mathematical background, I bring analytical thinking, adaptability, and a collaborative spirit to any UI design project, ready to enhance user experiences and contribute to innovative solutions.

Technical Skills

- Figma / Adobe Photoshop
- Web Development: JavaScript, CSS, HTML, SQL, React.JS, MongoDB, GitBash, Heroku
- Wondershare Filmora
- Proficient in MS Office and G-Suite
